

complete *comfort* and *control*

Homes are becoming 'smarter' with the integration of smart devices, apps and innovative gadgets created for almost all elements of the home.

Smart home integration is simple with the Somfy Connectivity Kit.

Manage Cruze roller motors from your smart phone. The Somfy Connectivity Kit allows you to integrate control of your home's automated features.

Centralised

The hub builds a connection to the users wifi router enabling control of Cruze motorised blind. Easily connect and control your

Cruze motors and lighting products from the TaHoma by Somfy app, individually or grouped together.

Simple

The Connectivity Kit is easy to install and directly connects to your internet router.

When connected with smart home devices, set timers to control your blind whether you are at home or away.

Switches

somfy® x CRUZE

Designed for your control and to simplify life, the hub integrates multiple connected products in the home and can be done remotely using the TaHoma by Somfy app. The app is made simple and intuitive by having four tabs on the home screen.

Home

Manage all products individually or grouped together. Recreate the rooms in your home or be inspired by the suggested. Group your products in each room and simply control them simultaneously.

My scenes

Save time daily by personalising your scenes.

My favourites

Find all your favourites in one place. Create a tailor-made menu by saving your favourite products, rooms or scenes in "My Favourites".

More

Manage general settings & your preferences.

Download the Tahoma app or scan the QR code on the hub

Voice assistant

Integrate the Hub and App with your other smart home devices to "talk to your blinds".

Simply use voice commands to "ask" your smart home device to raise or lower your blinds or set timers through selected smart home devices.

Create routines and schedule your blinds to open or close at the selected time.

Switch on lights, control heating or open and close blinds simply using your voice. Easy to programme and operate.
