Measuring
Simply Measure the visible glass size, width and drop.

The finished shutter will be 46mm larger than the glass size ordered.

Multiple Panels

It is possible to fit multiple panels side by side within a single pane of glass, up to a maximum of 6 panels.
Please give overall glass size and state how many panels are required.
These will be divided equally into the given glass size.

Each extra panel will be supplied with a right-hand over left-hand astragal.

To calculate panel size: (Glass Size + 46mm) divided by no. of panels.
